#### 10 YEARS YOUNGER

Alpine Ice is looking forward to its upcoming make over. Now in its 24<sup>th</sup> year, it is time to take a small break, address under-floor ice maintenance issues and give the facility a fresh and youthful look once more. Interior design consultants and the ice floor re-construction team have come up with a plan that will leave Alpine Ice with a fresh sparkle and high quality ice floor. Alpine Ice will close its doors on October 12<sup>th</sup> as the renovation work begins and it is envisaged that the work will be complete within 4 – 8 weeks. Exciting times are ahead as we look to the re-launch (and all the excitement and events that that brings) of a brand spanking new ice surface and a facility looking 10 years younger!
